

nab 04-106            It is not like me to write to congress regarding anything but this is an exception. I have been a subscriber to XM for more than a year now and I was very pleased to hear of them adding the traffic and weather to their programs.. I am a truck driver and nowhere else can I get this information while I am driving I enjoy paying for this service and would stress very much that they not be forced into canceling it due to some lobby group.    Thomas K. Morris
